For more information on this product, please refer to <https://www.ruthassetmanagement.com> or call +46-(0)8 700 52 60.

The Commission de Surveillance du Secteur Financier (www.CSSF.lu) has authorised and is responsible for supervising Ruth Asset Management SICAV.

The Management Company is Ruth Asset Management AB which is authorised in Sweden and regulated by Finansinspektionen (the Swedish Financial Supervisory Authority).

Date: **2024-09-01**

What is this product?

Type: Expansion crafted by Ruth is a sub-fund of Ruth Asset Management SICAV, a public limited company incorporated as an investment company with variable share capital and subject to part I of the Luxembourg law of 17 December 2010 relating to undertakings for collective investment. You are about to purchase a product that is not simple and may be difficult to understand.

Term: The sub-fund has no maturity date. However, please note that the sub-fund may be closed if it is in the interest of the shareholders and endorsed by the board of the fund in accordance with specific conditions or circumstances as described in the fund prospectus.

Objective: Expansion crafted by Ruth's objective is to outperform its benchmark over the long time. Expansion crafted by Ruth's comparison index is a composite index consisting of a Swedish and a global equity index as well as a Swedish and a global interest rate index (20% Bloomberg Barclays Global Aggregate Index Total Return (currency-hedged in SEK), 60% MSCI ACWI Index Total Return Net (50% currency-hedged in SEK), 5% Solactive SEK IG Credit and 15% SIX Portfolio Return Index (Total Return)). Expansion crafted by Ruth is an actively managed sub-fund whose assets are invested, without any geographical restriction, in the stock and fixed income market as well as in alternative investments. The sub-fund may have high exposure to individual regions and countries. The sub-fund invests in debt securities issued by corporate bodies, governments, and other entities. The sub-fund's benchmark index is also used to calculate the sub-fund's risk.

This risk is calculated as Value at Risk and is expected to be in the range of 0.4 – 1.2 times the reference portfolio's Value at Risk. The sub-fund promotes environmental and/or social characteristics as well as good governance practices and is categorized as article 8 according to EU Sustainable Finance Disclosure (SFDR). The sub-fund applies the management company policies for sustainability available at www.ruthassetmanagement.com.

Intended investors: The sub-fund is intended for investors who (i) have sufficient past experience and theoretical knowledge of this kind of investment allowing them to assess the risk of investing in this kind of product, (ii) have a long-term investment horizon and (iii) have sufficient resources to be able to bear the loss of their entire capital when investing in the sub-fund.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk indicator

The risk indicator assumes that you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. The product has no end date.

The summary risk indicator provides guidance on the level of risk of this product compared to other products. It shows how likely it is that the product will decrease in value due to market developments. We have classified the product as 3 out of 7, which is a medium-low risk class. This means that the sub-fund has a medium-low risk of ups and downs in the share value. The indicator above all reflects ups and downs in the sub-fund shares the sub-fund is invested in.

Risks not captured by the risk indicator:

Counterparty risk – arises if a counterparty does not fulfill its obligations towards the sub-fund, for example by not paying a set amount or not delivering securities as agreed.

Operational risk – the risk of loss due to, for example, system failure, errors caused by human factors or external events.

This product does not contain any protection against future market performance. You may lose all or part of it.

Performance scenarios

The figures include all the costs of the product itself but may not include all the costs you pay to your adviser or distributor. The figures do not consider your personal tax situation, which can also affect how much you get back. What you get from this product depends on future market performance. Future market developments are uncertain and cannot be predicted precisely. The unfavourable, moderate, and favourable scenarios show the worst, average and best performance of the product over the past 10 years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances. The scenarios occurred for an investment between 2013-2023. Past performance is not an exact indicator of future performance. It can help you to assess how the sub-fund has been managed in the past. What you get will vary depending on how the market develops and how long you keep the product.

Recommended holding period: 5 years

Example of investment = SEK 100,000

Scenario		If you redeem after 1 year	If you redeem after 5 years
Minimum	There is no minimum guaranteed return. You may lose some or all of your investment.		
Stress scenario	What you might get back after costs	SEK 48,370	SEK 52,700
	Average return each year.	-51,6%	-12,0%
Unfavourable	What you might get back after costs	SEK 92,180	SEK 110,950
	Average return each year.	-7,8%	2,1%
Moderate	What you might get back after costs	SEK 105,230	SEK 132,690
	Average return each year.	5,2%	5,8%
Favourable	What you might get back after costs	SEK 118,340	SEK 143,280
	Average return each year.	18,3%	7,5%

These types of scenarios occurred for an investment between:

The unfavourable scenario occurred for an investment between December 2021 and September 2024

The moderate scenario occurred for an investment between July 2017 and July 2022

The favourable scenario occurred for an investment between April 2016 and April 2021

WHAT HAPPENS IF RUTH ASSET MANAGEMENT SICAV IS UNABLE TO PAY OUT?

Each fund must have a dedicated depositary to take care of the safekeeping of the sub-fund's assets. There is a potential default risk if the assets of the sub-fund held with the depositary are lost. However, such default risk is limited due to the segregation of assets between those of the depositary and the sub-fund. The depositary is liable to the fund or to the investors of the sub-fund for the loss by the depositary or one of its delegates of a financial instrument held in custody unless the depositary can prove that the loss has arisen as a result of an external event beyond its reasonable control. For all other losses, the depositary is liable in case of its negligent or intention failure to properly fulfil its obligations pursuant to the Luxembourg law of 17 December 2010 relating to undertakings for collective investment. There is no other compensation or guarantee scheme for investors in the sub-fund.

WHAT ARE THE COSTS?

The person advising on or selling you the product may charge other costs. If so, this person will provide you with information about these costs and how they affect your investment. If the sub-fund is part of another product, such as unit-linked insurance, there may be other costs for that product.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year, you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,
- SEK 100,000 invested.

Example investment SEK 100,000	If you redeem after 1 year	If you redeem after 5 years
Total cost	SEK 1,820	SEK 12,730
Annual cost impact*	1,8%	2,0% every year

* This illustrates how costs reduce your return each year during the holding period. This shows, for example, that if you redeem at the recommended holding time, your average return per year is estimated to be 7,8% before costs and 5,8% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of Cost (the amounts are based on an investment of SEK 100,000)

One-off costs upon entry or exit		If you redeem after 1 year
Subscription costs	No subscription cost when purchasing	SEK 0
Redemption costs	No redemption cost on sale	SEK 0
Ongoing costs (charged annually)		
Management fees and others administration or operational costs	1,8% of the value of your investment per year. This is an estimate based on actual costs over the past year.	SEK 1,770
Transaction costs	0,0% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sells the product's underlying investments. The actual amount will vary depending on how much we buy and sell.	SEK 45
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product	N/A

HOW LONG SHOULD I HOLD THE INVESTMENT PRODUCT AND CAN I WITHDRAW FUNDS EARLY?**Recommended holding period: 5 years**

The sub-fund has no minimum holding period requirement, and it's suitable for a medium to long investment horizon. You should be prepared to save in the sub-fund for at least 5 years. You normally have the opportunity to sell your fund units on business days without any additional fee.
