WHAT IS THIS PRODUCT?

Type: Ruth Core Nordic Credit is a sub-fund of Ruth Asset Management SICAV, a public limited company incorporated as an investment company with variable share capital and subject to part I of the Luxembourg law of 17 December 2010 relating to undertakings for collective investment.
Term: The sub-fund has no maturity date. However, please note that the sub- fund may be closed if it is in the interest of the shareholders and endorsed by the board of the fund in accordance with specific conditions or circumstances as described in the fund prospectus.
Objective: RCNC is an actively managed fixed income sub-fund and its objective is to outperform , over the long term, the Solactive SEK IG Credit Index which reflects the performance of investment-grade credit denominated in Swedish kronor.
Intended Retail Investor: This fund may be suitable for investors who plan to hold their investment for at least 3 years and who understand that the money invested in the fund may both increase and decrease in value and that it is not certain that the entire capital invested can be returned. Investing in the Fund does not require any specific prior knowledge or experience of UCITS or financial markets.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk indicator

The risk indicator assumes that you keep the product for 3 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. The product has no end date.

The summary risk indicator provides guidance on the level of risk of this product compared to other products. It shows how likely it is that the product will decrease in value due to market developments.
We have classified the product as **2 av 7** , indicating on a low level.

Risks not captured by the risk indicator:
Counterparty risk – arises if a counterparty does not fulfill its obligations towards the sub-fund, for example by not paying a set amount or not delivering securities as agreed.

Operational risk – the risk of loss due to, for example, system failure, errors caused by human factors or external events.

This product does not contain any protection against future market performance. You may lose all or part of it.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Performance scenarios

The figures include all the costs of the product itself but may not include all the costs you pay to your adviser or distributor. The figures do not consider your personal tax situation, which can also affect how much you get back. What you get from this product depends on future market performance. Future market developments are uncertain and cannot be predicted precisely. The unfavourable, moderate, and favourable scenarios show the worst, average and best performance of the product over the past 10 years. The stress scenario shows what you might get back in extreme market circumstances. The scenarios occurred for an investment between 2016-2026. Markets could develop very differently in the future.

Past performance is not an exact indicator of future performance. It can help you to assess how the sub-fund has been managed in the past. What you get will vary depending on how the market develops and how long you keep the product.

Recommended holding period: 3 years

Example of investment = SEK 100,000

Scenario		If you redeem after 1 year	If you redeem after 3 years

WHAT HAPPENS IF RUTH ASSET MANAGEMENT SICAV IS UNABLE TO PAY OUT?

Each fund must have a dedicated depositary to take care of the safekeeping of the sub-fund's assets. There is a potential default risk if the assets of the sub-fund held with the depositary are lost. However, such default risk is limited due to the segregation of assets between those of the depositary and the sub-fund. The depositary is liable to the sub-fund or to the investors of the sub-fund for the loss by the depositary or one of its delegates of a financial instrument held in custody unless the depositary can prove that the loss has arisen as a result of an external event beyond its reasonable control. For all other losses, the depositary is liable in case of its negligent or intention failure to properly fulfil its obligations pursuant to the Luxembourg law of 17 December 2010 relating to undertakings for collective investment. There is no other compensation or guarantee scheme for investors in the sub-fund.

WHAT ARE THE COSTS?

The person advising you on or selling the product may charge additional fees. If that is the case, they must inform you about these costs and how they affect your investment. If the sub-fund is included as part of another product, for example an investment insurance, other fees may apply for that product.

Costs over time The tables show the amounts taken from your investment to cover various types of costs. The amounts depend on how much you invest, how long you hold the product, and how the product performs. The amounts shown here are based on an example investment amount and various possible investment periods.

We have assumed the following:

- In the first year, you get back the amount you invested (0% annual return). For year 3, we have assumed that the product performs as shown in the neutral scenario.
- 100,000 SEK is invested.

Example investment SEK 100,000

	If you redeem after 1 year	If you redeem after 3 years
Total costs	**1,110 SEK**	**3,510 SEK**
Annual cost impact*	1.1% Every year	1.1% Every year

* This illustrates how costs reduce your return each year during the holding period. This shows, for example, that if you redeem at the recommended holding time, your average return per year is estimated to be 12,1% before costs and 10,2% after costs. We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of Costs(the amounts are based on an investment of SEK 100,000)

One-off costs upon entry or exit		**If you redeem after 1 year**
Subscription costs	No subscription cost when purchasing	0 SEK
Redemption costs	No redemption cost on sale	0 SEK
Ongoing costs (charged annually)		
Management fees and others administration or operating costs	1.0 % of the value of your investment per year. This is an estimate based on actual costs over the past year.	972 SEK
Transaction costs	0.1 % of the value of your investment per year. This is an estimate of the costs incurred when we buy and sells the product's underlying investments. The actual amount will vary depending on how much we buy and sell.	134 SEK
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product	0 SEK

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?
